

Electronic Portfolio System

Parental Feedback – Kindergarten Classroom

I am really excited to see the electronic portfolio up and running. We check the site weekly to see what you have added and the whole family looks forward to seeing the next addition. We have shared it with many of our relatives and friends and they love it as much as we do! Thank you for taking on such a project.

Awesome idea! How exciting! What a great way to keep parents and teachers in touch with the student's progress at everyone's convenience.

I had trouble getting into the site but I went through Google and then I could get in. Super idea...thanks so much!!

Hi!!! I loved it. Its so cute. You really did a wonderful job on it and I am looking forward to looking at it for years to come.

I have been showing the portfolio to all of my co-workers...they are very impressed.

The biggest plus in my opinion is knowing that you are capturing my child at the start of her school career and that this will continue until she graduates. I can't wait to have a compilation of her work for her 13 years of school when she graduates (not that I am rushing it).

How do you decide what goes into the electronic portfolio because at this point it is all awesome!!! I wouldn't change a thing.

You really captured my son as he really is, it makes me smile every time I look at it. Thanks.

I loved watching our Evelyn read ☺

What a neat idea...now I won't have to sort through container after container trying to find grades from one year to the next. Thank you for being one of the teachers that was willing to pilot this...I can that there is a lot of work that goes into it.

Oh my gosh. That's so awesome! I am a bit computer illiterate but I did finally get it and it's cool. Keep the neat stuff coming.

Thanks for the directions on how to look at everything in the portfolio. I am not very good with a computer but your directions were easy to follow and I could see everything on the site. The portfolio is really nice!!

Hey, I have a question about all this portfolio stuff...if this is the pilot that you are involved in, when does it become not a pilot, but something that all teachers are required to do? The reason I am asking is because next year when we go to choose possible teachers for Courtney am I also going to have to consider the fact that only some of the teachers are going to be doing the portfolio, because I think it is just the best thing...next to Reese's Peanut Butter Cups of course...& I would like to get a teacher next year that is doing the portfolio. (Wow, was that a run on sentence or what...did you understand that?)
